

Grip It[®] Oil Gauntlet C5

Grip It[®] Oil Gauntlet C5 has been specifically developed to address the need for a single glove solution, offering ultimate mechanical and chemical protection in both wet and oily environments. It is constructed using a soft, seamless high cut resistant Kevlar[®] liner and a dual waterproof PVC coating. The dual coating is made up of an inner, highly flexible layer and an outer slip resistant layer. Covering just the hand area, the outer layer has a granular finish to provide an enhanced grip and is especially competent in oily conditions. The Grip It[®] Oil Gauntlet C5 achieves maximum scores for abrasion, cut and tear resistance in accordance with European standard EN388, providing excellent protection and durability under intense mechanical duress; it also conforms to European standard EN374 offering good resistance against oil, and many acids, caustics, alcohols; and is heat resistant as specified under European standard EN407 for Thermal Hazards.

Typically used for:

- Metal Fabrication • Railway Maintenance
- Glass Handling - Wet & Dry
- Oil & Chemical Processing
- Engineering Work • Drainage Works

Case Quantity:

10 pairs per polybag
40 pairs per case
